STUDENT LIFE

reflects our school and social environments in the best way possible.

Classes, homework, report cards, and conferences are familiar to every high school student, but there are many other social events that go on during the school year. High school simply wouldn't be anything without such events as Homecoming, Prom, and various pep sessions that go on during the year.

Do yourself a favor and get involved in student life. It will make your high school years much more enjoyable during the present and much more memorable in the future.

A cool September evening was the backdrop for the Redskins Homecoming game. Anticipation filled the air as Manual's heroes took their battle stands behind the mammoth banner. The stadium stood suspended in tension until, with a mighty roar, they tore through like savages leaving only scraps behind. (Photo by D. Hopper)

Show that spirit

Spirit Week came early for Manual, lasting from September 23-25. The week was filled with plenty of activities and fun for all.

Wednesday was the beginning of all the spirit, with jersey day. There was crazy tie and button day. Joining this crazy day was a pep rally for the mighty football players, who were planning on bring-

ing a Homecoming victory.

Friday was red and white day. Many students as well as teachers showed their school spirit by wearing their red and white. There was a variety of styles, from ribbons to different colored shirts and pants.

Redskin Pride

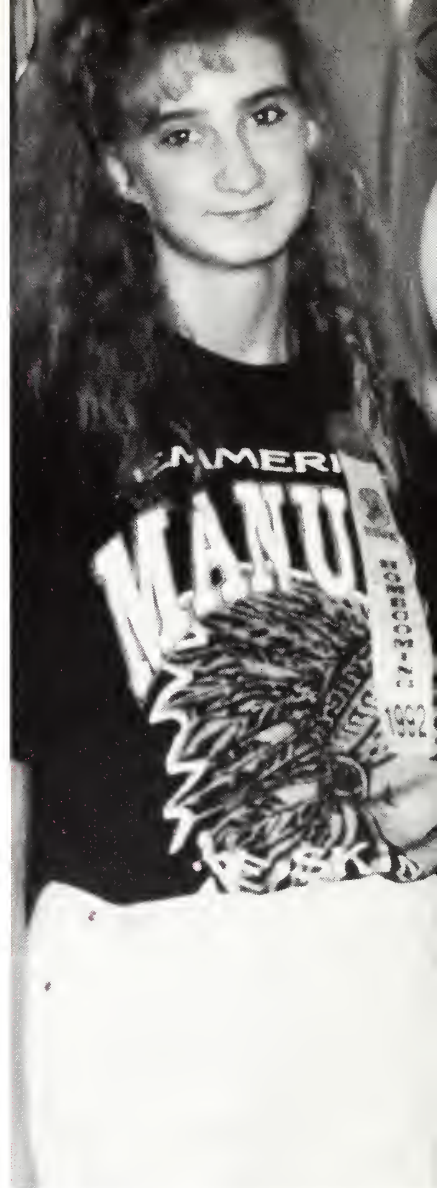

The day before the big game Manual had the best pep session ever. It began with the cheerleaders and boostermen cheering. Todd Davis introduced the order of events. All athletes involved in fall sports were recognized. The highlight of the afternoon was when the seniors of the varsity football team stood before the crowd and

thanked them for their support.

Mr. Schultz led a class competition cheer. Despite the efforts each class made, the juniors were unbeatable as they screamed their way to victory. The excitement grew when the cheerleaders danced to "Jump." As the students exited, hopes were high for a Homecoming victory.

Fire up 'skins

This year's Homecoming game was against the Northwest Space Pioneers.

Split end, David Knox, scored their first touchdown after receiving the Pioneers' kickoff and dashing down the entire length of the field. After that play, the Redskins allowed the Pioneers to score two touchdowns. The Redskins were defeated

with a score of 14 - 6.

This year's queen candidates were Brandy Muckey, Jennifer Boles, Tascha McCurty, Christy Zimmerman, and Loretta Mickens. The king candidates were Gary Miller, Tim Sutt, Todd Davis, Earl Hollowell, and Franiko Ballard. The winners were King Franiko Ballard and Queen Tascha McCurty.

Carousels in the park

The theme for the 1992 Junior-Senior prom was "Carousel in the Park." It was held April 18 at the Murat Temple. "When I'm with You" was the theme song. The colors were red and gold.

The choices for King were Jamie Brickley, Jimmy Doss, and Ryan Eltzroth, for Queen, Gina Allen, Dawn Carter, Lisa Duvall, Tonja

Hughes, and Brea Middleton. The King was Jimmy and Queen was Tonja. Choices for Prince were Todd Davis, Gary Miller, Jamie Snapp, Tim Sutt, and Bobby VanAtta, for Princess, were Tascha McCurty, Loretta Mickens, Bonnie Mills, Brandy Muckey, Jenni Witt, and Christie Zimmerman. After dark comes

What do most students do on Friday nights? Some go out with a boy/girlfriend to the movies, a party or a game. Those who go to a game usually get together somewhere afterwards. Most of the time they meet at Big Kahuna's and talk about what's going on in life and about the game. There's different

things to do like, play the jukebox, sing, and dance. At about 11:30 the crowd moves to Sport Bowl. It's time for Rock-N-Bowl, so the lights go out and the loud music goes on.

Whatever you do, you'll have fun, so get with the act, find your school spirit, join the crowd, and be prepared to have fun!

Pow Wow explodes

The 1992 Pow Wow, as in years past, had a super turn-out. There were many different booths, and activities for Manual Redskins to participate in. Publications sponsored the jail where many people spent the majority of their evening. Miniature golf was sponsored by the Junior Class.

The crowning of the Pow Wow king and queen took place at 7:30. Candidates were seniors Tonja Hughes and Stafford Woods, juniors Gloria Kirkland and Franiko Ballard, sophomores Ericka Martin and Mike Glenn, freshmen Jodi Brink and Joshua Mathis. The Redskins' choice for king was Mike Glenn and queen was Tonja Hughes.

Take five

As we go through school and life, one thing that is important is friendship. Everyone has that one friend, or group of friends, that has stuck by them through good times and bad times. Some friendships last only a short while, others last a lifetime. Even the best and most determined student must

take time to socialize and be with friends who care.

Everyone should take time to realize who their friends really are. Times with friends should be cherished and remembered always. High school is the time when memories are made. Take time out, be with your friends, and enjoy your teenage years.

Joining together

Emmerich Manual High School and Eli Lilly and Company were paired up by the Indianapolis Chamber of Commerce for the purpose of drawing schools and businesses together.

Lilly has donated their time, money, and equipment to Manual. One program, Big Brothers and Big Sisters, is formed by a group of sophomore girls paired with Lilly volunteers.

Lilly is involved in all areas of interest of the student body. For example, they hold many different programs for the different students at Manual. Some students even get a chance to visit Eli Lilly and shadow a worker of the company.

By Amanda Mitchell

Eli Lilly works with Manual High School to help promote perfect attendance. Here the students with perfect attendance for the 1991-92 school year pose after the Academic Sweater and Perfect Attendance Awards Reception.

Freshmen Trina Campbell gets her blood pressure checked when Lilly scientists visit Manual.

Terry Shoopman performs a real "scientific" experiment. What could he possibly be brewing?

Kim Donahue checks out all of the different "What Does a Scientist Do?" displays.

Dortese Dixon draws a crowd as he becomes a breathing participant.

Hurricane Andrew strikes

In Dade County, Florida, a disasterly hurricane swept through the area in a few hours and left \$20 billion worth of damage. The most destructive hurricane in U.S. History, left 90,000 homes in shambles and 86,000 people unemployed in Florida alone.

Kate Hale, the director of Dade County's Office of Management, called her own press conference asking President Bush, "Where is the cavalry on this one? We need food. We need water. We need people. For God's sake, where are they?"

The military brought aid for those whose houses had been blown away and had nothing left but the little bit of clothes on their back. Finally, most of everyone was fed and clothed with the help of the U.S., including Indiana.

Allies hit Iraqi missiles

"We mean what we say, we back it up." Words from President Bush. "The criminals have come back:" words from Saddam.

Allied war planes answered weeks of Iraqi provocation with a surgical air strike at military targets inside a no-fly zone in Southern Iraq.

Edward Perkins, U.S. Ambassador to the United Nations, told Iraq, "Don't assume this is the end." Hamdoun called the attack, "Very uncivilized," but said Iraq was ready to cease raids across a disputed border into Kuwait. Stop preventing U.N. planes from flying weapons inspectors into Iraq.

President-elect Clinton supported the allied raid. President Clinton states "Saddam keeps on pushing and pushing." He also called sending the troops to Kuwait "a good thing."

Spring 1992-Spring 1993

Battle for food

For awhile now we have been trying to help out the unfortunate people over in Somalia a country in Africa is know as the "Kingdom of the dead and near dead."

At virtually every stage of the relief effort food slips away from those who need it most. Thousands of Somalis who overwhelm the feeding centers.

When able to get food to shore relief agencies are hostage to their own protectors. Forced to hire gunmen to guard themselves and supplies. When food does arrive at the Red Cross warehouses it's still in danger of being stolen.

--Hollie Thomas

Olympics in Barcelona

In the summer of '92, countries from all over met in Barcelona for the Olympics. The U.S. brought home plenty of gold medals to make us proud. Other countries were also making their homes proud and took home gold too.

The American gymnast, Shannon Miller, made a near perfect vault but still had to settle for a silver medal. America's best hope for a gold in gymnastics, Kim Zmeskal, was betrayed by a split second foot fault and finished 10th in the individual all-around competition.

After the final laps were swam the American men and women had collected 11 gold, 9 silver, and 7 bronze. Matt Biondi and Tom Jager became the first U.S. swimmers to win gold medals in three different olympics, while Nelson Diebel took a gold medal in the 100-meter breaststroke. The U.S. Olympic team made most everyone happy with their accomplishments.

The changing of the guard

As the year 1993 began, hope was the main emotion after election results named Arkansas Governor Bill Clinton, the forty-second president. The first democrat to occupy the White House in twelve years knew this was a major occasion and as a result, threw a bash unlike ever before. The week of the inaugural celebration found all eyes on the capitol. And no one was disappointed with what they saw.

Almost all of Hollywood flocked to the east coast. Barbra Streisand, Goldie Hawn, Ray Charles, and Michael Jackson were just a few who joined the Clinton's on the steps of the Lincoln Memorial and sang "America." The road ahead will not be an easy one, for President Clinton or the nation. The continuing conflicts in Iraq, Somalia, and Bosnia construct an unsure future. But that is no match for the present optimistic outlook of every American.

-- Robin Berry

CLUBS are another one of many ways for students to get involved. There are a variety of clubs at Manual, from Math and Science clubs to Drama and French clubs.

The vocational classes, such as VICA and DECA, are also considered clubs. Like in all other clubs, they choose officers and hold meetings. Many of the clubs go on field trips and some do volunteer or community service.

There are many advantages to being involved. You can earn honor points that count toward the Manual League of Honor. It also gives you a chance to learn about new things and meet new people.

KEEPING CLEAN

A life without drugs

Through many organizations here at Manual, the students get an opportunity to be in a drug-free environment.

One of these are "Just Say No" or Natural Helpers. In this class students learn how to be good leaders. Something that stems from this class is the Clean Team.

This is a group of students that go out and talk to elementary students on reasons to stay drug

free.

Something else that leaves an impact is S.A.D.D. or Students Against Drunk Driving. This is a group of students who get together and discuss the effects of drunk driving and share personal experiences.

No matter which organization suits you, everyone has the chance to be in a drug-free society.

RULING THE ROOST

Leaders of the class

The junior and senior councils are a group of people who make the decisions for the junior and senior class.

One of the many things the councils do is make prom decisions.

Also, the two councils have fundraisers and activities to raise money for prom and graduation.

The junior council has many candy sales, poster sales, and a vending machine in the teacher

lounge to raise money for prom.

The senior council sponsored Spirit Week, Halloween dress up day, and the senior class Christmas party. The senior council also decides on the senior class motto and graduation announcements.

SONG AND DANCE

An instrumental inspiration

Where is the Music Department? It's the building across the campus from the gym. Such classes taken in the Music Department are: Girls Glee Club, Concert Choir, Manualaires, Orchestra, Band, Flags, and Keyboard.

Other than during school classes there are also extra-circular activities to participate in; such as solo and ensemble contest. Students

choose a piece of music, rehearse, and then perform for judges, and get either a 1st, 2nd, or 3rd place medal. This year's students participating in Group I Solo's are: Juniors Christy Rogers and Keisha Malherbe, Seniors Robin Berry and Bill Hunter. Good Luck!!!

CLUB SPORTS

The athletic way

All aspects of Manual society has there own corresponding clubs. The Athletic department is no exception. Block M is the department's elite club that honors all athletes who have earned their varsity letters. All athletes, from football players to cheerleaders are recognized after the completion of their varsity seasons.

FCA is a club for students who are Christian

athletes. These students participate in all kinds of sports and have many goals they would like to complete and take on to college.

All Manual athletes work hard and do the best they can to be all they can be. Team members spend a lot of time working on improvements to help their team on to victory.

PUTTING IT TOGETHER

Preserving high school memories

The IVIAN staff is responsible for the yearbook. They take all kinds of pictures and write many stories. The IVIAN staff has many deadlines to meet. It is very important to get things done in order to get the yearbook published on time. Sometimes the students have to stay after and come in on weekends. It's a lot of hard work but it can also be a lot of fun.

The Booster Staff is

responsible for Manual's Newspaper. They take pictures, draw pictures, and write stories. They write up to date stories on Manual's current issues and sports.

The IVIAN and Booster Staffs work very hard at what they do, but they enjoy their work because they can be proud of their finished products.

WORKING HARD

Getting credit for your job

The COE, VICA, and DECA programs have become a big part of Manual High School's junior and senior class in the 1992-1993 school year. These programs give Manual High School students the chance to broaden their responsibilities and prepare themselves for the workforce after graduation, while also providing convenient times for the students to partake

in their quest for future independence.

While other Manualites are enduring the day at school, these students are spending the first or second half of the day in the workplace. Many participants agree that these programs also provide the opportunity to create connections in the workforce. As a result, the future for these Manual grads looks promising.

by Doug Hopper

HONOR CLUBS

Mentally challenging

Two of the strongest traditions at Manual are the senior honor clubs of Roines and Masoma. These exclusive organizations consist of seniors who meet certain academic and honor point requirements and also receive recommendation from the deans and teachers.

Roines and Masoma are probably best known for their crazy antics during their two weeks of

pledging.

Human bowling, picking dandelions for teachers, "walking the dog," and 'squatting' the Masomas' are among the Roines favorites'. Masoma pledges dress up as different characters which include fruits, cartoon characters, rock stars, and "Nerdy Roines."

by Hollie Thomas

"Roines does more than just build men. It helps the community and supports school spirit. It's definitely worth the hassle of pledging."

*Albert Mullins,
President*

BEATING THE ODDS

Going against the best

One of the best kept secrets at Manual High School is down in the basement under the stage. Where? You don't know? That must be because you've never taken an ROTC class.

Daily, students trek down the back stairs to the dark classrooms where they participate in a variety of activities.

Namely, they participate in a wide range of JROTC classes. Part of

taking the classes is being involved in the extracurricular activities.

There's something for everyone in the world below the stairs, and frequently they surface to show us what they've accomplished.

ROTC activity members participate in contests and meets with other schools. They can always be seen before football and basketball games as they carry the American flag.

NEW HORIZONS

Making exploration fun

The students in the Math/Science Club are kept busy throughout the year. They have many fund raisers familiar to all Manual students. Around Christmas they sell poinsettias, for Valentine's Day they sell carnations, and they can often be found walking the halls with bags of candy. The money raised goes to various field trips. Last

year they traveled to Kentucky to see the Mammoth Cave.

When asked how she felt about the Math/Science club, junior Mandi Ott replied, "It gives us a chance to enjoy ourselves in an educational environment."

HELPING OUT

Students and the community

The Key Club is a club that stresses leadership through the works of services. They sponsor a canned food drive to assist needy families. The Key Club also sponsors the Homecoming dance.

Big Sisters-Little Sisters is a program through Eli Lilly that pairs student up with their employees through Miss Mann, the coordinator. The idea of Big

Sisters is to help girls stay in school and keep a good positive attitude through life. The Big and Little Sisters attend many different activities together each year.

Project Set involved students who are thinking about pursuing a teaching career in the future. The students attend teacher conferences that are for high school students. Project Set is sponsored by Mr. David Phillips.

By Tiffany Ferguson

"Key Club gives me a chance to be involved with the community and the school. I like to try to get others involved by doing things everybody likes to do, like Valentine Candy Grams and the Talent Show."

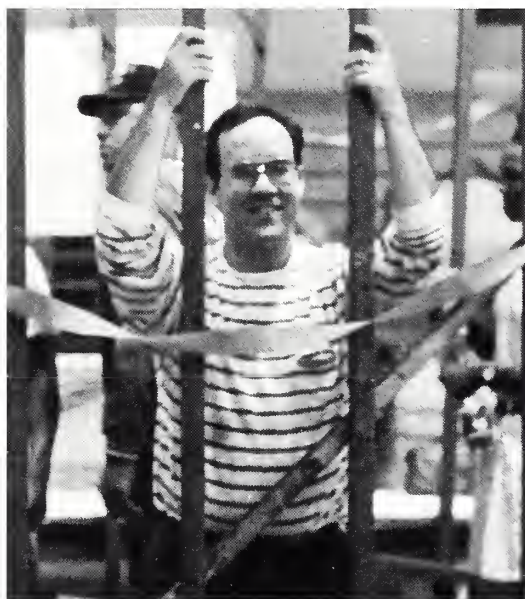

*Crystil Upshaw,
President*

THE VOICES OF THE INVOLVED

Students speak out about activities

Extracurricular activities let you develop a better attitude towards your school. They teach you to take pride in yourself and to learn to get along with other people.

*--Andrea Bates,
junior and athlete*

Extracurricular activities allow opportunities for young adults to explore different areas of fun and learning. In addition they are a chance to meet new friends and bond.

*--Doc Hignite,
teacher and sponsor*

I think that after school programs are good for many reasons. They teach students to work together as teams in sports. You should be able to work with other people. They are also very good because of the simple fact that it does keep kids off of the streets.

--Dustin Tate, junior and athlete

I feel extracurricular activities are very beneficial to the youth because they keep them out of trouble.

--Michael Young, sophomore and athlete

Extracurricular activities give students a chance to have fun and stay off of the streets.

--David Tolan, freshman and athlete

I think activities are good because they motivate you to do well in the school and the community.

--Oscar Novoa, senior

I think activities are pretty darn decent. They give me something to do during the day besides work!

*--Rhonda Grady,
junior and
journalist*

School activities are a time to be free and get away from pressure. You have time to yourself and time to

have fun.

--Christy Rogers, junior and music student

I think extracurricular activities make students feel more a part of their school. The school is theirs, and they have an obligation.

--Patty Shephard, teacher and sponsor

If it weren't for sports, I probably wouldn't do homework, and I would be into trouble. It gives me the incentive to do my work and keep up my grades.

--Eric Nibbs, senior and athlete

The extracurricular activities help students become well-rounded. They also contribute to school spirit.

*--Cheryl Ingram,
sophomore and
cheerleader*

Showing school spirit can boost self-confidence and help students stay positive and keep their grades up.

*--Josh Morgan,
junior and
Boosterman*

PEOPLE: You see them everywhere. They are in the halls, at games, and in your classes. But, they're more than just other kids that go to your school. They're your classmates. They're your friends. They're who you have gossip sessions with and who you lean on during rough times. Maybe some of them you don't even really know, but they all make up your class. A class missing someone is incomplete. Look around you before it is your time to leave Manual. Realize how each person has affected your life. Savor each moment. The friends you make here are precious. Stand by them. Appreciate them. Remember them.

SENIORS

SENIORS

SENIORS

SENIORS

They're the experienced ones. They know what high school is like. They're the seniors. It's a privilege many Manualites aspire to have. But, it is only reached through true knowledge. Spending years at Manual gives you great wisdom.

You know which teachers stop you for a pass, which stairwell is usually deserted, and what class allows tardiness. You can spot Freshmen from across campus and

can tell what's for lunch from the color of the cloud which looms over the cafeteria. Only such vast wisdom can come from spending more than three years here... which equals 1,460 days; 35,040 hours; 2,102,400 minutes... and counting.

That countdown has begun and is (sadly?) coming to an end. This section is therefore dedicated to the few, the proud, the brave...the SENIORS.

Daily dilemma

Being a Senior means having no worries or cares, right? NOT! There are lots of responsibility and pressures applied to students in the 12th grade. But oddly enough, no one seems to know about them until the fall of their Senior year.

As juniors, they tried to make their senior year easy; filling their schedule with underwater basket weaving and manicure maintenance. But, government, economics, health and that all important eighth English credit loom over them like a dark cloud. To make matters worse, this "heavy" study load is always under attack by a social disease that determines exactly who will graduate. It is known as Senioritis and can seal your fate by the means of twelve or more absences. And there always seems to be a certain teacher that is determined to catch you in the thralls of this illness. Once June arrives, no one can blame Seniors when all they can say is, "Whew! That was close!"

L *ooking back*

It doesn't seem possible that four years have passed. It seems only yesterday we were freshmen, our eyes wide with innocence as we walked unfamiliar halls. So, come with me and we'll take a trip down the Madison Avenue of Manual memories.

Channel One was installed and for the first time FA wasn't quite so boring. Our generation witnessed its first war and participated quite patriotically (remember all those yellow ribbons?) Homecoming, Pack the Place nights, and proms all began to add up. We acquired both a Basketball Sectional Championship and a Wrestling Sectional Title. Attendance became mandatory and we were given school convocations, too. (Anything to get out of class, right?) But one of the biggest triumphs, was the paving of our student parking lot. Unfortunately, with all the advances we've made, one thing still remains the same; we'd still rather cut to Burger King than endure school lunch.

Saying goodbye

Remember when we were freshmen? It doesn't seem like it was too long ago, we were just getting to know each other and saying hello. Now we're seniors and it's time to say goodbye.

In June most of us will go our separate ways. Some will go to college, some work, and others will serve our country. It seems our lives will not actually begin until after graduation. But, no matter where our future takes us, we will all have one common bond: memories of Manual High School, as only the Class of 1993 could experience.

From our first Homecoming to Commencement, we have every moment in between to cherish and remember. But after those few months, there will be nothing left to say; nothing but, "goodbye."

JUNIORS

JUNIORS

The junior class of 1994 is a class full of spirit and enthusiasm. All are looking forward to their first Jr./Sr. Prom and Junior Appreciation Day.

As you go through your junior year your parents start to pressure you to start thinking about college, getting your best grades, and to get involved in all the clubs you could possible have the time for.

The closer it gets to the end of our junior year we all start to get

overly enthusiastic about trying to be "Top Class Seniors."

The junior class was named the class with the most spirit, so juniors let your spirit shine bright and be a true, full blooded Redskin.

The Matchmakers of Manual

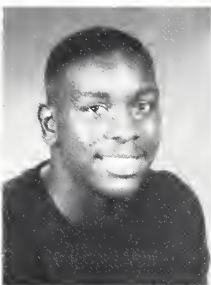

They are everywhere, silently patrolling the halls, lurking in the restrooms, and even sitting next to you now. They can be one of your best friends or a total stranger. But, they all have the same mission in life...to hook you up with someone you wouldn't look at twice. They are the Terrorists of Love.

They all claim to have your best interest at heart. Whether the result is good or not depends mostly on how badly you need a date. But don't wish too loudly, because some of those love demons might grant your worst nightmare. So next time you find yourself complaining that you spent Saturday night babysitting, think twice and imagine an evening with Waldo.

In the still of the night

What are dreams? The Webster dictionary states that dreams are visionary creations of the imagination. When asked, freshmen Robert Brizendize confessed to one of his most frightening dreams he's had. "As I went into the local club, I was seized by fifteen or so bald men and they forced me into a corner. All of the men were touching my head and exclaiming that all of my hair would fall out, and I would soon be one of them."

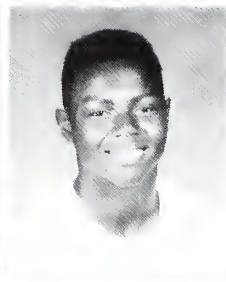

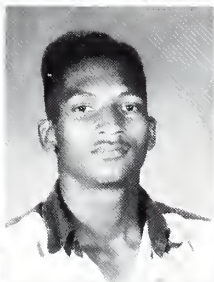

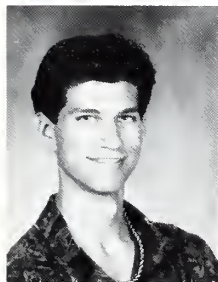

Sophomore April Smith claimed to have the weirdest dream ever. "Two of my best friends and I lived in a beautiful house on a hill with a swimming pool, tennis court, and hot tub. As we went on through our lives, we had many things happen simultaneously. First, we all got married on the same day and time. Second, we all got pregnant at the same time, but had different due dates for some reason, then we all had triplets on the exact same day, time, and hospital. The grossest thing is that my husband wanted to keep the after birth."

Dreams can be confusing and strange at times, but there are always pleasant dreams to also be remembered. As you fall asleep each dreamful, starry night, wish yourself to have sweet dreams.

Are you glad that you're a Senior, Junior, Sophomore, or Freshman? If so then you have Class Spirit. The class you're in should give you a sense of pride. You're growing-up, getting more responsible, and you should be proud of your class.

But class spirit doesn't stop there. You should realize you're part of something bigger than just you and your friends. Your class represents more than a hundred people. You should want your class to be the best of all four and therefore, should be involved with everything your class does. After your graduation, most of your memories will be of what your class did throughout your high school years. Don't be disappointed and get involved.

SOPHOMORES

SOPHOMORES

SOPHOMORES

SOPHOMORES

Sophomores face new responsibilities and new experiences. They're past being called a "FRESHY." Some students say that the best part about being a sophomore is that you're not a freshmen anymore.

Many sophomores look forward to turning sixteen and getting their driver's licenses. Other sophomores just wait till they're old enough to quit.

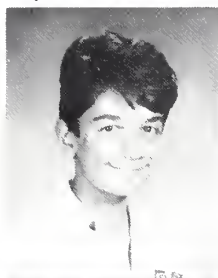

Now that the sophomore year of 1992-3 is over, the students are half-

way through their high school life.

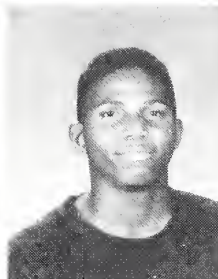

Big changes lie ahead. You will no longer be an underclassman. The completion of this year makes individuals feel a new sense of responsibility.

Sophomores are an elite group which still has the carefree attitude of their freshmen counterparts but also posses a unique sense of maturity. Therefore, they have the best of both worlds and should savor every minute of it.

Dewaune Mosley and Heather Spears sport their Starter jackets. these jackets are a must have of today's fashion.

What's In ? What's Out?

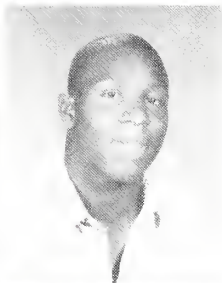

In today's society, nothing ever stays the same. Years ago, if you wore Jordache jeans, and smelled like Old Spice, You were a pretty hip dude. You probably also liked to go cruising in your Gremlin while listening to Q95 and eating "Mickey-Deez."

Well, that's all changed. Now, to be up with fashion you sport Guess jeans, Air Jordans, and smell of Drakkar. Today's hottest sports are football and hockey. Driving a 5.0 or Blazer and listening WZPL or Hoosier 96 is also hip. Now if fast food is what you want, make a run for the border because Taco Bell is taking over the fast food industry.

A national epidemic concerns all

After Magic Johnson made the announcement that he was HIV-positive, the world stopped and took notice. That day AIDS became a stark reality. But his warning wasn't enough. According to experts, AIDS is spreading unchecked among teens regardless of continuous warnings and blunt information from the media.

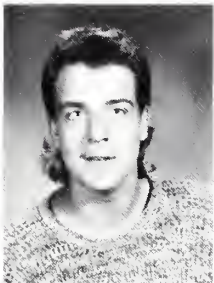

Since the beginning of the epidemic, more than 5,000 children and teenagers have died of AIDS. It is now the sixth leading cause of death among 15- to 24-year-olds. No one knows exactly how many teens are HIV-positive, but during the past three years, the number of 13- to 24-year-olds diagnosed, increased 77%. The cause of most of these cases wasn't sharing dirty needles or blood transfusions, it was sex. So what can YOU do to protect yourself?

The only real "safe sex" is no sex. But sex is less risky if you use a latex condom with spermicide containing nonoxynol-9. This spermicide not only kills the sperm, but the AIDS virus itself. Be sure to check for holes in the condom and look at the expiration date on the spermicide. Remember, you can't tell if someone has AIDS just by looking. Some symptoms don't show-up until ten years later. The stakes are high because you're dealing with life and death, and EVERYONE is at risk.

FRESHMEN

FRESHMEN

FRESHMEN

FRESHMEN

The freshmen class had the challenge of getting in the swing of things. They had to get used to the idea of a new school, new classmates, new friends, new teachers, and new rules and regulations,

Traditionally, the freshmen year is when you're most likely to be picked on and teased. Almost all freshmen survive this period of high school. The ones who do survive are now really a part of the Redskin family.

As soon as they feel a part of the school, they become involved in all kinds of sports, clubs, and activities. The first year of Manual is where it all begins. Make the most of it. You only have three years left.

Hair today, gone tomorrow

Walking down the halls of Manual High School, a blur of hair whizzes past one's eyes. Some look for the "most popular" style, but their search is vain.

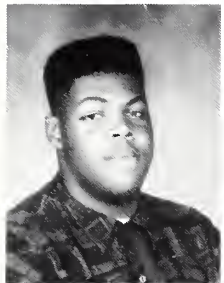

Hair styles vary from one extreme to another. Presently, it seems nothing is too outrageous or too mellow. Some of the styles are: beaded, braided, permed, hairsprayed, natural, long, short, curled, colored, twisted, and shaved.

A little note to those who are looking for the perfect haircut and/or style—be yourself, unique.

TEACHERS TEACHERS STAFF & OTHERS

The opening of school brought with it several changes in the staff. Some were familiar faces and others were missing due to retirement and reassignment. Several teachers chose to retire at the end of the school year.

Having served Manual for many years, most of them agreed that they would greatly miss the friends they made with students and the faculty. They also agreed that they would not miss getting up early or driving to school on slick, snowy streets. The paper work, the discipline, and the daily routine would not be missed at all.

However, we are fortunate enough to

have a fine staff that supports this school through change, adversity, and most importantly, lots and lots of fun.

It is comforting to know that there are people in the building who care and who students can talk to.

Most of us have a favorite person who we can get advice from and who will willingly help us with school work. If you don't have a teacher-friend like that, look harder. You're surrounded by them. And, that's one of the reasons most teachers went into teaching.

An integral part of Emmerich Manual High School is its teachers. Some teachers even initiate things simply because they love to put on a show.

Has anyone seen Mrs. Shepherd and Miss Baldridge? Rumor has it that teaching has "aged" them quite a bit.

WHO MAKES TEACHERS?

A variety of universities and colleges are represented by our staff.

Students tend to ask teachers, "Why did you decide to become a teacher?"

Well, they became teachers for several reasons. Some became teachers because of the pay and the vacations. Others because it was their life-long dream.

One teacher said, "I was taught by my parents and my teachers that each person has a responsibility to give back to society, that public service is a responsibility of every individual."

Another teacher was quoted as saying, "I wanted to be a kindergarten teacher when I was in grade school. Once I went to high school, I fell in love with algebra and decided to become a math teacher. It's been my life-long ambition to be a teacher. It was natural."

The main reason why they became teachers is because they like working with adolescents. They feel they can help the students achieve their goals, providing the students want to learn and have a successful future.

Teachers have really worked hard to pursue their career. For the most part teachers really enjoy what they do.

Believe it or not: Teachers like to celebrate just as much as students do! An annual gathering which everyone looks forward to is the Christmas pitch-in. Manual teachers share their contributions with each other and past Manual employees. Mrs. Hammer listens intently to post-Manual experiences.

SPORTS play a major role in many students' school curriculum. There are many benefits that come out of playing on an athletic team. There is always a chance to meet a variety of people that you can't always meet in class. Participating in sports gives one a sense of competition, camaraderie, and focus. The lessons taught on the playing field are priceless and help shape the future of each athlete. Regardless of the season, there's always a sport in which the Redskins compete. In short, there can never be enough athletes and never enough Redskin fans.

by Mandi Ott

Clad in his exoskeletal armor, David Knox appeared invincible to the pathetic attempts made by the Washington Continentals to block his path. With a spectacular combination of strength and speed, his agility moved him to the goal line ...untouched. Had it not been for the attacks of various Redskin linemen, his efforts would have been in vain. (Photo by Prestige.)

Tackling Triumph

The season of '92 wasn't exactly what the coaching staff and players expected. Hopes were high during summer practices and even higher at the IPS jamboree at Arlington. But after being defeated there, that clear August night became somewhat of an omen.

During their eight game regular season, the 'Skins earned a record of 1 and 7. That single victory came after defeating Tech at our home stadium. But despite their record, they did improve with time. When they were faced with sectionals, Manual was ready.

The Redskins took a road

trip to conquer the New Castle Trojans. It was there that our red warriors played with the intensity of champions. The result was 45-27, a major scalping that made all Manualites proud. Though the victory was sweet, it was also short-lived. For the following week, the Redskins fell to a mighty Pendelton Heights team.

Getting Intense

Manual's ladies in red had another outstanding season in '92. They competed against some of the best schools in the city and with great success.

Overall, the varsity won nine out of sixteen matches, in a season that began in August and ended in late October. Leadership was a key factor in those victories.

Coach Kathy Newman-Smith looked to her seniors for positive role models, and found it in Captain Michelle Gaskin, Brandy Guard, Brandy Muckey, and Kim VanBuskirk. Another key factor was the companionship the team felt.

As Michelle Gaskin said,

"We played as a team, because we acted as a team."

The coaching staff also looks for great things from junior varsity in the future, after vast signs of improvement.

But there are even higher expectations of another squad, the freshman. For the first time in a long time, Manual had a competitive freshman team.

Thus, the Redskin tradition of excellence is insured to live on.

The Missing Link

The boys' golf team had a winning season with 10 wins and 5 losses. The team won IPSAC, placed 5th in the City Tournament, and placed 7th in the Sectionals.

Brandon Ford, the captain of the 1992 golf team, plans on returning next season, along with the other members of the team, with one exception of senior, Anthony Pero who will not return next season.

Coach Craig is looking forward to the returning players as well as the new players and a great winning season.

The girls' golf team did not have a very winning

season this year, although there is a promising season for next year. However, the girls' team always has a great deal of fun, especially since the team usually consists of seniors trying the sport for the first time.

Two promising players for next year's team are Hollie Thomas and Kerri Brown.

Hopes for next year are to win more matches and to be good competition in the IPSAC and City Tournament.

Coach McNiel hopes to see a lot of new faces as well as returning girls for next seasons golf team.

Great Balls of Fire

The 1992 boys' tennis team had an up and down season. They ended the season with five wins and six losses.

In the sectional, Manual beat Washington 5-0 but lost to Perry Meridian 0-5. In the City Tournament Manual came in 8th and in the IPSAC Manual placed 4th.

The #1 singles player was Todd Davis. The #1 doubles team consisted of Richard Byard and Joshua Ray.

The girls' tennis team didn't do as well as the boys' team, but they did put forth a lot of effort. They ended the season with two wins and ten losses. However,

most of the team plans on pursuing the game of tennis next spring and having as much fun as they had this year. Team member Heather Humphrey said, "This year was the hardest that we have ever played. For a lot of us, it was our first year playing."

Senior LeeAnne Thomas was the star player.

There was a lot of fun and exciting times, but a lot of effort and practice as well.

Hot on the Track

The girls' track team had a good season last spring. They had a lot of great runners who ran long, hard, and gave it all they had.

Danielle Dabney made it to the State meet in the 200m dash and recieved the MVP award.

Shanea Woods set two new school records in shot and discus.

Takeela Freeman improved greatly. She tackled the hurdles and became the Most Valuable Freshman.

Yommier Thomas earned the Best Mental Attitude award, and April Edwards excelled in the 400m dash.

For the first time, the girls

went to the Southport Relays and did extremely well with the athletes who attended.

Dabney won the long jump, and the relay team placed in the top three.

Although the team graduated two seniors, they still have some outstanding athletes returning in the spring. The future looks bright for this young team.

Like the Wind

Manual's 1992 boys track and field team had a record this year of seven wins and five losses.

The team showed determination as they placed runner-up for the conference, city, and regionals meets.

At the sectionals they placed third, and they were forty-sixth in the State.

This outstanding group of young men is the perfect example of how a team can perform when they have the dedication and focus to succeed.

There were two new records set this season by students at Manual. Vernon Morgan set a new record for

the 1600 meter run with a time of 4:32.5.

Another record was set by Reggie Graves in the high jump. His height was 6'11 3/4".

These healthy young men are hoping to have a better season next year.

Hoopin' It Up

The 1993 boys' basketball team had a rough season. There were quite a few changes dealt with by the team. Many of last years' varsity players graduated so there was almost a whole new team; however, there were some team members returning.

Another change the team has dealt with is a new varsity coach. Former junior varsity coach Pack Craig took over the position of varsity coach after Coach Belser retired from his coaching career at the end of the 1992 season. Coach Craig did a wonderful job

with the junior varsity team in the past, and now he is doing the same with the varsity players.

Although the 1993 season has been a rough one for the Redskins, they have proven that they do know how to deal with change by showing a great deal of improvement.

March Madness

March found Indiana in its usual state of Hoosier Hysteria and Manual High School was no exception. Expectations were high since we were defending our Sectional Championship title. Memories of "cutting the net" were still fresh in the minds of every Redskin. As a result, the pressure was on.

The Redskins came to the Southport Sectional facing the Howe Hornets, who lost to Manual earlier in the season in overtime. A tough battle was ahead and spirits were high. But, unfortunately, that wasn't enough. The first half Manual and Howe were neck-and-neck.

It's a bird; it's a plane; it's Marlin Rush going up for two points!

Each basket by the Skins was answered by a score from the Hornets. During the third, Manual took a short-lived lead but soon saw their chance for back-to-back titles disappear.

But, the fans would not extinguish their hopes and stood cheering the entire fourth quarter. They urged their team on clapping, stomping and shouting until time ran out. Despite a valiant effort by the team and the enthusiasm of our fans, the Redskins were defeated. At the buzzer, the scoreboard read 63 to 58.

Get Fired Up

There's more to these girls than meets the eye. By watching television, a lot of people get the impression that cheerleaders are a bunch of dingy girls who can do nothing more than clap their hands and yell in unison. Those who think this are sadly mistaken.

The Redskin Cheerleaders and Boostermen practice long and hard to make sure they are able to pump up both the fans and the teams. They also have to work hard in school to keep up their grades. If their

grades are bad they can't cheer.

"This year we've had one of the best squads ever due to our boostermen. They, and the return of Mrs. McFall as sponsor, really helped the squad come together", stated Senior Robin Berry, Captain of the cheerleading squad.

"Cheer leading has been hard work but a lot of fun too. I'm sure years from now I'll look back and smile."

Fresh Start

The 1992-93 girls' basketball team underwent several changes. The most significant of which was their new varsity coach, Mrs. Newman-Smith. One effect Newman-Smith had on the team was a new state of mind. They now had a sense of optimism unlike seasons past.

But their roster was filled with tough competitors and the team was relatively young. Despite their efforts and improvement, their season had only one win against the Washington Continentals. But hopes are high for next year due to the

efforts by the girls during this season.

The junior varsity team also shows promise for future varsity wins. Coach Rick Husted helped the junior varsity with basic fundamentals that are crucial to any successful basketball game.

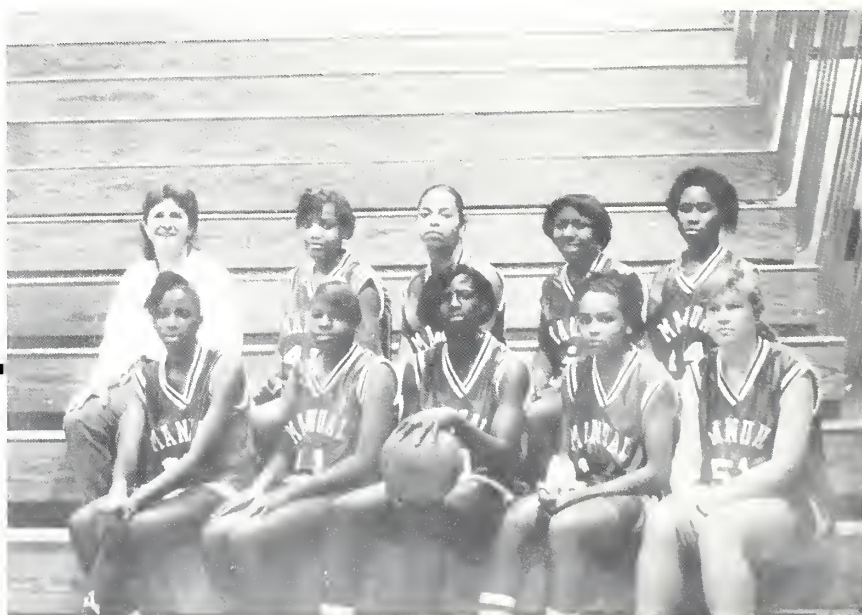

With such an outstanding coaching staff and enthusiastic players, Redskins can look forward to the seasons ahead.

Throwing Fireballs

1992 Manual Redskins baseball team had its up and downs with a promising first game. Coming from behind to a victory over Beech Grove, the Redskins seemed to have what it takes for a great season. After the first game victory, things just started going downward.

The J.V. team had two new coaches, Mr. Ruth and Mr. Smith, who both played college baseball and both helped the team a lot. They helped Brad Hummel ready himself for varsity baseball. The Redskins hope to have them back so they can continue to help build the Redskins baseball program.

Two records were broken in the 1992 season when sophomore Tommy Sears surpassed Jeff McGuire for most strikeouts in a season with 114 and tied the record for most strikeouts in a game with 15.

Two players were selected for the 1992 American Legion team for Beech Grove. Tommy Sears and Bobby Vanna enjoyed leading the team to the 1992 Sectional Championship.

The Captain and MVP award winner for the 1992 season was Jason Nelis.

The Heat is on

The lady Skins once again dominated the diamonds, as they claimed the coveted IPSAC title. The road to victory was clearly paved, for the Skins had all but one returning veteran. The combination of talent and friendship enabled the girls to work as a team and toward a common goal. That goal was the IPSAC title and was obtained after beating the Washington Continentals. But there was more than just talent and luck that produced this season; there was teamwork and leadership.

The teamwork came from each girls' understanding of what was expected of them.

With all the varsity returning except for one, there were no excuses. And the leadership came from the talent of the co-captains, center-fielder Wendy Walker and catcher Lisa Duvall. Another key factor was the pitching talent of Jenni Witt, Michelle Gaskin, and Dana Russell. The team as a whole has great expectations for next season as well.

Only two players were lost after the '92 graduation, so plans to keep the IPSAC title in the Manual family are already in the works.

Hot Moves

Although the Redskin wrestling team failed in its attempt to capture the 1992 City Wrestling Title, a valiant effort by all members made it possible for the Redskin team to finish runner-up. In a two team race, Manual scored 235 points to finish second behind Cathedral's 256 points.

The Redskin Wrestling team was able to win its third straight "IPSAC" championship. With no Manual wrestler placing below third place, the Redskins were able to win five individual titles, placing four wrestlers in the runner-up position and

three wrestlers in third place. Winning titles were Mike Glenn, John Amos, Mike Parham, David Walls, and Mitch Miller. Landon Bedford, Craig Kello, Larry Evans, and Thurman Eldridge placed runner-up.

The Redskin wrestling team has worked very hard this year and hopes to be as good if not better next year.

Running Hard

Cross country is one of Manual's better sports. With great runners like Vernon Morgan, how could we lose?

The boys had a wonderful record of twelve wins and one loss. After placing first in IPSAC and City, they qualified for Semi-State and brought a lot of pride to the Redskins. Morgan, Manual's fastest runner, placed 4th in Semi-State and 6th out of 131 runners in State. Other outstanding runners were junior David Chapman and senior Damon Bland.

For the first time in a very

long time, Manual had a full girls' cross country team with sometimes seven girls running. April Edwards proved to be the best and strongest runner while Jamie Willoughby was the most enthusiastic and spirited. The team had their best win-loss record ever with five wins, two losses, and four incompletes. They placed 3rd in IPSAC and 6th in City.

Both teams have high hopes for next season, and are very enthusiastic.

Make Way

As freshmen athletes make the transition from junior high to high school, they find they have their own league of sports.

Aside from the varsity and junior varsity teams, freshmen teams are available in the areas of football, basketball and wrestling. This gives our ninth graders a chance to grow accustomed to their particular sports' programs and "learn the ropes."

Freshmen sports allow athletes to perform at a higher level than when they were in junior high, while also preparing them for their junior varsity and varsity ca-

reers. Such preparation is beneficial to the athletic department, too. It ensures the best teams for the most competitive sports.

We look to our freshmen to carry on the tradition of winning at Manual. We expect nothing but success, and from what we've seen, so do they.

We would like to thank the many people who contributed to this year's *IVIAN*. To Prestige Studio and Herff Jones, we extend our deepest thanks. We would also like to acknowledge the experience and inspiration given to our staff by Chris Frick (our Herff Jones representative) and our own Miss Copher ("The world is your olive, you Super-bowl freak, you!"). But, without the imagination and drive of our staff, our pages would be empty.

This book represents an entire year, and we have tried to include each and every event that has taken place within the halls of Manual. Therefore, we would like to thank the teachers, staff, and students who contributed to these pages. This is their book. These are their memories. Without them, the *IVIAN* would not exist.

With sincere thanks,
Becky Asher and Robin Berry.
